TèVita's Story

TèVita Olive Leaf Tea is 100% organic handpicked whole leaves from Abruzzo, Italy, after their artisan traditions dating back generations. Abruzzo is considered the "green heart" of Italy. Protected and nourished by the Apennine Mountains to the West and the Adriatic coastline to the East, Abruzzo is known as the most pure and pristine agricultural region in all the Mediterranean.

TèVita is harvested with care by local villagers, unlike other olive leaf tea which are mass harvested and processed using dead and dying leaves. Only the healthiest young leaves are handpicked then slow dried using a special process that brings out the most rich and sweet flavor and preserves the highest nutritional value of the olive leaves.

Olive leaf tea has a long history of healing benefits dating back to ancient civilizations in the Mediterranean region including the Greeks, Romans, Egyptians, Syrians and ancient Israel.
